Here at disc to digital we understand the frustrations of gamers all around the world. Hi, my name is Jaymes and I am a gamer. I know the frustration of having to buy discs in 2018. We have these amazing and powerful consoles, yet we have to download the game even if we have the disc! The disc only acts a key to play so why not make that key digital. If you send in your disc we are able to convert it into a digital code in at most three days. We take that code and uses our advisors to evaluate and make sure the disc is worthy to be traded.

As the processes starts we send you email updates on the status of your trades. Once everything is complete you will receive an email with instructions on how to download your game on the platform the disc came in. At this time, we are not able to trade cross platform. For example, we can't trade Call of Duty: WWII on Xbox for PlayStation.

But we are focused on providing the easiest video game purchasing service available. No extra ads, no annoying email lists, or pop ups. We organize all of the games in our library by console platform. We support disc 2 digital trades on most Xbox, PlayStation, Nintendo, and Steam games. If a game does not have our d2d trade checkmark then that game is able to be purchased as a disc.

However, we offer a program called D2D Points. With this program if a game is not available for trade of a digital code then we award points that can be spent to purchase other games or codes available on d2d.com.

Buying a game for a friend? We can personally send a gift PDF that you can gift to your friend or loved one. This is a great way to celebrate birthday's or special holidays!

We also offer a hassle-free return policy on our games. If a disc is not in correct condition to trade we will ask (via email) if you would like the disc back, or for us to add points based on the quality of the disc.

If you purchased a disc and would like to return it, visit d2d.com/returns which will guide you through the return process. If you purchased a digital game we cannot offer any returns. For any other problems or questions visit, d2d.com/contact-us.

We are a small company located in Rexburg, Idaho. We are fellow gamers who are trying to provide the fastest and best trading service possible. We understand the hassle of organizing discs and game sharing so we want to make this age of digital gaming easier.

Are we GameStop? No, thank heaven NO! We know that games are actually worth money. That's why we guarantee that we can offer the best value through the partnerships of the big gaming companies. Plus, the disc is reused to help create more video game discs, movie discs, program discs, and so much more!

To trade in a game visit d2d.com/trade for the full details. There is a fee of \$7.00 that is used in order to ship, process, and convert the game to its digital code.

To find the latest trade in deals visit, d2d.com/deals. This is where you can find the latest trade in deals. Right now, you can trade a Shadow of War disc and receive an Shadow of Mordor for free! More deals always coming weekly to our library of games.

Here at D2D we offer the latest in video game selection. Every 2 weeks we update our library to include all of the top releasing games.

If there is a game that you would like to see added to our library you can fill out a form located at d2d.com/new-games.

Thanks to the partnership of the companies of Xbox, PlayStation, Nintendo, and Valve, we have all of their latest deals posted on d2d.com/deals.

Whether you are old, young, nerd, athlete, girlfriend, mom, uncle, we invite you to trade your games to help give yourself or others, a wonderful and simple experience of playing on of the greatest forms of media, gaming!
